## Chronological Table of World History

 **ワールドヒストリカ対応** このページの情報はワールドヒストリカに準拠しています。この表記がないページは未対応情報を含みます。

Since this is only a brief history, detailed information has been cut out even if the dates are clear. In the table, the **red letters indicate** upheavals and incidents, and the **blue letters indicate** economic movements.

The chronology is presented in this format so that the vertical axis shows the flow of time and the horizontal axis shows the regional connections, since it is difficult to recognize the regional spread of events if the chronology is presented as a single chronological table. For example, in the early 21st century, we can see the chain of joint national policies from Europe, Russia, the Americas, Asia, and Africa. The flashing red symbols in various places mark this influence. For example.

Next to "U.S.N. to terminate against Asia in 2022" and "E.C. to stop supporting Bangladesh in 2023," there is "O.C.U. formed" and the Asian countries united to create a strong market against the U.S.N. and E.C., which made it impossible for the U.S.N. and E.C. to support them anymore. etc.

The four black belts are a concise summary of the gradual changes in world affairs, or in layman's terms, "changes of the times. From a micro perspective, there are some exceptional events.

The term "Ginadi Hanzhaga" is used on the official website, but here it is replaced by "China".

アフリカ地域	ヨーロッパ地域	アジア・オセアニア地域	アメリカ地域	ザーフトラ・大漠中 <sup>ほか</sup>	テクノロジー
1970~. Frequent coups d'état in various countries. NGOs, mainly from Western countries and Japan, begin providing assistance to ensure stable agricultural production.					1847 Naxos founded. 1899 Bazaruto founded. 1949 Yagisawa Heavy Industries founded. 1953 IGUCHI founded. 1964 Vince founded.
